

We do not recognise the verdict against Tenzin Delek Rinpoche

Dear Mr Zhou,

Tenzin Delek Rinpoche (Chinese name: A'an Zhaxi) was unjustly persecuted by the Chinese authorities in Sichuan Province during your term as Party Secretary there.

Like the people of Lihang, Kham (Ch: Litang, Sichuan Province), we do not recognise the verdict against Tenzin Delek Rinpoche. No credible evidence has ever been presented to support the charges against him. As a revered Buddhist leader, it is unfathomable that he would have been involved in "conspiring to cause explosions".

We, the undersigned, call on you to immediately grant Tenzin Delek Rinpoche independent legal assistance and a new, open trial on the basis of three points: that there is no proof against him, that he steadfastly asserts his innocence, and that there is a widespread belief in Tibet and worldwide that he was framed by Chinese officials who viewed his influence as a threat to their power.

If, in a new trial, no credible evidence is presented against Tenzin Delek Rinpoche, we demand his release.
